### The Covered Bridge Fund NOTES TO FINANCIAL STATEMENTS

**September 30, 2024** 

#### I. ORGANIZATION

The Covered Bridge Fund (the "Fund") is a diversified series of shares of beneficial interest of Northern Lights Fund Trust III (the "Trust"), a Delaware statutory trust organized on December 5, 2011 and registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The investment objective of the Fund is to seek current income and realized gains from writing options with capital appreciation as a secondary objective. The Fund commenced operations on October 1, 2013.

The Fund currently offers Class A and Class I shares. Class A shares are offered at net asset value plus a maximum sales charge of 5.25%. Class I shares are offered at net asset value. The Fund charges a fee of 1.00% on redemptions of shares held for less than 90 days. Each class represents an interest in the same assets of the Fund and classes are identical except for differences in their sales charge structures and distribution charges. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans. The Fund's income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the year. Actual results could differ from those estimates. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services Investment Companies" including FASB Accounting Standards Update ("ASU") No. 2013-08.

Security Valuation – The Fund's securities are valued at the last sale price on the exchange in which such securities are primarily traded, as of the close of business on the day the securities are being valued. In the absence of a sale on the primary exchange, a security shall be valued at the mean between the current bid and ask prices on the day of valuation. NASDAQ traded securities are valued using the NASDAQ Official Closing Price ("NOCP"). Exchange traded options are valued at the last sale price, or, in the absence of a sale, at the mean between the current bid and ask prices. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost.

Securities for which current market quotations are not readily available or for which quotations are not deemed to be representative of market values are valued at fair value as determined in good faith by or under the direction of the Trust's Board of Trustees (the "Board") in accordance with the Trust's Portfolio Securities Valuation Procedures (the "Procedures"). The Procedures consider the following factors, among others, to determine a security's fair value: the nature and pricing history (if any) of the security; whether any dealer quotations for the security are available; and possible valuation methodologies that could be used to determine the fair value of the security.

The Fund may hold investments, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These investments will be valued using the "fair value" procedures approved by the Board. The Board has delegated execution of these procedures to the adviser as its valuation designee (the "Valuation Designee"). The Board may also enlist third party consultants such a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist the Valuation Designee in determining a security-specific fair value. The Board is responsible for reviewing and approving fair value methodologies utilized by the Valuation Designee, which approval shall be based upon whether the Valuation Designee followed the valuation procedures established by the Board.

Fair Valuation Process – Applicable investments are valued by the Valuation Designee pursuant to valuation procedures established by the Board. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source); (ii) securities for which, in the judgment of the Valuation Designee, the prices or values available do not represent the fair value of the instrument; factors which may cause the Valuation Designee to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities

September 30, 2024

markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; and (iv) securities with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to a Fund's calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid investments, such as private investments or non-traded securities are valued based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If a current bid from such independent dealers or other independent parties is unavailable, the Valuation Designee shall determine, the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund's holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

The Fund utilizes various methods to measure the fair value of all of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level I - Unadjusted quoted prices in active markets for identical assets and liabilities that the Fund has the ability to access.

**Level 2** – Observable inputs other than quoted prices included in Level I that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

**Level 3** – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following tables summarize the inputs used as of September 30, 2024 for the Fund's assets and liabilities measured at fair value:

Assets *	·	Level I	Level 2	Level 3	Total
Common Stocks		\$ 105,767,095	\$ -	\$ -	\$ 105,767,095
Short-Term Investments		4,254,696	-	-	4,254,696
Put Options Purchased		329,000	-	-	329,000
	Total	\$ 110,350,791	\$ -	\$ -	\$ 110,350,791
Liabilities					
Call Options Written		(1,250,255)	(81,850)	-	(1,332,105)
	Total	\$ (1.250.255)	\$ (81.850)	\$ _	\$ (1.332,105)

The Fund did not hold any Level 3 securities during the year ended September 30, 2024.

st Please refer to the Schedule of Investments for Industry Classification.

September 30, 2024

Foreign Currency Translations — The books and records of the Fund are maintained in US dollars. The market values of securities which are not traded in US currency are recorded in the financial statements after translation to US dollars based on the applicable exchange rates at the end of the period. The costs of such securities are translated at exchange rates prevailing when acquired. Related interest, dividends and withholding taxes are accrued at the rates of exchange prevailing on the respective dates of such transactions.

Net realized gains and losses on foreign currency transactions represent net gains and losses from currency realized between the trade and settlement dates on securities transactions and the difference between income accrued versus income received. The effect of changes in foreign currency exchange rates on investments in securities are included with the net realized and unrealized gain or loss on investment securities.

Option Transactions – The Fund is subject to equity price risk in the normal course of pursuing its investment objective and may purchase or sell options to help hedge against risk. When the Fund writes a call option, an amount equal to the premium received is included in the statement of assets and liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option. If an option expires on its stipulated expiration date or if the Fund enters into a closing purchase transaction, a gain or loss is realized. If a written call option is exercised, a gain or loss is realized for the sale of the underlying security and the proceeds from the sale are increased by the premium originally received. As writer of an option, the Fund has no control over whether the option will be exercised and, as a result, retains the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may purchase put and call options. Put options are purchased to hedge against a decline in the value of securities held in the Fund's portfolio. If such a decline occurs, the put options will permit the Fund to sell the securities underlying such options at the exercise price, or to close out the options at a profit. The premium paid for a put or call option plus any transaction costs will reduce the benefit, if any, realized by the Fund upon exercise of the option, and, unless the price of the underlying security rises or declines sufficiently, the option may expire worthless to the Fund. In addition, in the event that the price of the security in connection with which an option was purchased moves in a direction favorable to the Fund, the benefits realized by the Fund as a result of such favorable movement will be reduced by the amount of the premium paid for the option and related transaction costs. Written and purchased options are non-income producing securities. With purchased options, there is minimal counterparty risk to the Fund since these options are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded options, guarantees against a possible default.

The notional value of the derivative instruments outstanding as of September 30, 2024 as disclosed in the Schedule of Investments and the amounts realized and changes in unrealized gains and losses on derivative instruments during the period as disclosed within the Statement of Operations serve as indicators of the volume of derivative activity for the Fund.

Impact of Derivatives on the Statement of Assets and Liabilities and Statement of Operations – The following is a summary of the location of derivative investments on the Fund's Statement of Assets and Liabilities as of September 30, 2024:

Derivative Investments		Location on the Statement of Assets and	d	
Туре	Risk	Liabilities		Amount
Options Purchased	Equity	Investments in Securities at Value	\$	329,000
Options Written	Equity	Options Written, at value		(1,332,105)

The following is a summary of the location of derivative investments in the Fund's Statement of Operations for the year ended September 30, 2024:

Derivative			
Investments Type	Risk	Location of Gain/Loss on Derivative	Amount
Options Purchased	Equity	Net Realized Gain on Investments and Options Purchased	\$ (1,464,633)
Options Written	Equity	Net Realized Gain on Options Written	4,935,925
Options Purchased	Equity	Net Change in Unrealized Appreciation (Depreciation) on Investments and Options Purchased	(566,877)
Options Written	Equity	Net Change in Unrealized Appreciation (Depreciation) on Options Written	(350,921)

**September 30, 2024** 

Security Transactions and Investment Income — Investment security transactions are accounted for on a trade date basis. Cost is determined and gains and losses are based upon the specific identification method for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Purchase discounts and premiums on securities are accreted and amortized over the life of the respective securities.

Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Expenses – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses that are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

Federal Income Taxes – The Fund complies with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and will distribute all of its taxable income, if any, to shareholders. Accordingly, no provision for federal income taxes is required in the financial statements. The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years ended September 30, 2021 – September 30, 2023, or expected to be taken in the Fund's September 30, 2024 tax returns. The Fund identifies its major tax jurisdictions as U.S. federal, Ohio and foreign jurisdictions where the Fund makes significant investments. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Dividends and Distributions to Shareholders – Dividends from net investment income, if any, are declared and paid quarterly, and distributions from net realized capital gains, if any, are declared and paid annually. Dividends and distributions to shareholders are recorded on the ex-dividend date. Dividends from net investment income and distributions from net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These "book/tax" differences are considered either temporary (e.g. deferred losses) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification. Any such reclassifications will have no effect on net assets, results of operations, or net asset values per share of the Fund.

Indemnification – The Trust indemnifies its officers and Trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

#### 3. CASH - CONCENTRATION IN UNINSURED ACCOUNT

For cash management purposes, the Fund may concentrate cash with the Fund's custodian. As of September 30, 2024, the Fund held \$864,350 in cash at Interactive Brokers.

### 4. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES

Advisory Fees – Stonebridge Capital Advisors, LLC serves as the Fund's investment adviser (the "Adviser"). Pursuant to an investment advisory agreement with the Trust on behalf of the Fund, the Adviser, under the oversight of the Board, directs the daily operations of the Fund and supervises the performance of administrative and professional services provided by others. As compensation for this service and the related expenses borne by the Adviser, the Fund pays the Adviser a management fee, computed and accrued daily and paid monthly, at an annual rate of 1.00% of the average daily net assets. For the year ended September 30, 2024, the Adviser earned management fees of \$1,121,002.

The Adviser has contractually agreed to waive all or part of its management fees and/or make payments to limit Fund expenses (exclusive of any front-end or contingent deferred loads; brokerage fees and commissions; acquired fund fees and expenses; borrowing costs (such as interest and dividend expense on securities sold short); taxes; and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual and indemnification of Fund service providers (other than the Adviser))) at least until February I, 2025, so that the total annual operating expenses of the Fund do not exceed 1.65% and

September 30, 2024

I.40% of the average daily net assets for its Class A and Class I shares, respectively. Contractual waivers and expense payments may be recouped by the Adviser from the Fund, to the extent that overall expenses fall below the lesser of the expense limitation then in place or in place at time of waiver, within three years of when the amounts were waived. During the year ended September 30, 2024, the Adviser waived \$72,550 in fees pursuant to its contractual agreement.

As of September 30, 2024, the following amounts are subject to recapture by the Adviser by September 30 of the following years:

2025		2026	2027		Total	
\$ 	-	\$ 53,193	\$	72,550	\$ 125,743	_

Distributor – The distributor of the Fund is Northern Lights Distributors, LLC ("NLD" or the "Distributor"). The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plan for the Fund's Class A shares (the "Plan") pursuant to Rule 12b-1 under the 1940 Act, to pay for certain distribution activities and shareholder services. The Plan provides a monthly service and/or distribution fee that is calculated by the Fund at an annual rate of 0.25% of the average daily net assets of Class A shares. For the year ended September 30, 2024, pursuant to the Plan, the Fund paid \$29,833. No such fees are payable with respect to Class I shares.

The Distributor acts as the Fund's principal underwriter in a continuous public offering of the Fund's Class A shares. For the year ended September 30, 2024, the Distributor did not receive any underwriting commissions for sales of the Fund's Class A shares.

In addition, certain affiliates of the Distributor provide services to the Fund as follows:

Ultimus Fund Solutions, LLC ("UFS") – UFS, an affiliate of the Distributor, provides administration, fund accounting, and transfer agent services to the Trust. Pursuant to separate servicing agreements with UFS, the Fund pays UFS customary fees for providing administration, fund accounting and transfer agency services to the Fund. Certain officers of the Trust are also officers of UFS, and are not paid any fees directly by the Fund for serving in such capacities.

Northern Lights Compliance Services, LLC ("NLCS") - NLCS, an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from the Fund.

Blu Giant, LLC ("Blu Giant") – Blu Giant, an affiliate of UFS and the Distributor, provides EDGAR conversion and filing services as well as print management services for the Fund on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Fund.

### 5. INVESTMENT TRANSACTIONS

The cost of purchases and proceeds from the sale of securities, other than short-term securities, for the year ended September 30, 2024, amounted to \$130,792,591 and \$145,409,772, respectively.

#### 6. REDEMPTION FEES

The Fund may assess a short-term redemption fee of 1.00% of the total redemption amount if a shareholder sells their shares after holding them for less than 90 days. The Fund received redemption fees of \$4,742 and \$5,444, for the year ended September 30, 2024, and the year ended September 30, 2023, respectively.

### 7. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION – TAX BASIS

The identified cost of investments (including open positions in written options) in securities owned by the Fund for federal income tax purposes and its respective gross unrealized appreciation and depreciation at September 30, 2024, were as follows:

C			oss Unrealized	Gr	oss Unrealized	N	et Unrealized	
	Tax Cost Appreci		Appreciation	ation (Depreciation)			(Depreciation)	
\$	122,316,411	\$	2,547,779	\$	(15,845,504)	\$	(13,297,725)	

September 30, 2024

#### 8. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The tax character of distributions paid during the fiscal years ended September 30, 2024, and September 30, 2023, were as follows:

	Fisc	cal Year Ended		Fisc	al Year Ended
	Sept	ember 30, 2024		Septe	ember 30, 2023
Ordinary Income	\$	9,442,027	_	\$	10,684,217
Long-Term Capital Gain		14,029			-
•	\$	9,456,056	- -	\$	10,684,217

As of September 30, 2024, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed	Undistributed	Post October Loss	Capital Loss	Other	Unrealized	Total
Ordinary	Long-Term	and	Carry	Book/Tax	Appreciation/	Distributable Earnings/
Income	Gains	Late Year Loss	Forwards	Differences	(Depreciation)	(Accumulated Losses)
\$ 1,962,654	\$ -	\$ -	\$ -	\$ (31,285)	\$(13,297,835)	\$ (11,366,466)

The difference between book basis and tax basis accumulated net realized losses and unrealized depreciation from investments is primarily attributable to the tax deferral of losses on wash sales. In addition, the amount listed under other book/tax differences is primarily attributable to the tax deferral of losses on straddles.

During the fiscal year ended September 30, 2024, the Fund utilized tax equalization which is the use of earnings and profits distributions to shareholders on redemption of shares as part of the dividends paid deduction for income tax purposes. Permanent book and tax differences, primarily attributable to tax adjustments for use of tax equalization credits and adjustments for prior year tax returns, resulted in reclassifications for the Fund for the fiscal year ended September 30, 2024, as follows:

Paid In	Ac	cumulated
 Capital		Losses
\$ 376,155	\$	(376,155)

### 9. CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates presumption of control of the fund, under Section 2(a)(9) of the 1940 Act. As of September 30, 2024, Charles Schwab & Co, Inc. and Pershing LLC, accounts holding shares for the benefit of others in nominee name, held approximately 57% and 27%, respectively, of the voting securities of the Fund. The Fund has no knowledge as to whether any beneficial owner included in these nominee accounts holds more than 25% of the voting shares of either class.

### 10. SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has determined that no events or transactions occurred requiring adjustment or disclosure in the financial statements.

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of The Covered Bridge Fund and Board of Trustees of Northern Lights Fund Trust III

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of The Covered Bridge Fund (the "Fund"), a series of Northern Lights Fund Trust III, as of September 30, 2024, the related statement of operations for the year then ended, the statements of changes in net assets and the financial highlights for each of the two years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of September 30, 2024, the results of its operations for the year then ended, the changes in net assets and the financial highlights for each of the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

The Fund's financial highlights for the years ended September 30, 2022 and prior, were audited by other auditors whose report dated November 28, 2022, expressed an unqualified opinion on those financial highlights.

### **Basis for Opinion**

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2024, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund's auditor since 2023.

### The Covered Bridge Fund SUPPLEMENTAL INFORMATION (Unaudited)

**S**eptember 30, 2024

### Renewal of Advisory Agreement \*

In connection with a meeting held on August 21-22, 2024, the Board, comprised entirely of Trustees who are not "interested persons," as that term is defined in the 1940 Act, discussed the renewal of the investment advisory agreement (the "Advisory Agreement") between the Adviser and the Trust, with respect to The Covered Bridge Fund ("Covered Bridge"). In considering the renewal of the Advisory Agreement, the Board received materials specifically relating to Covered Bridge and the Advisory Agreement.

The Board relied upon the advice of independent legal counsel and its own business judgment in determining the material factors to be considered in evaluating the Advisory Agreement and the weight to be given to each such factor. The Board's conclusions were based on an evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching his or her conclusions with respect to the Advisory Agreement.

Nature, Extent and Quality of Services. The Board recognized that the Adviser was founded in 1997 and had approximately \$1.9 billion in assets under management. The Board reviewed the background of the Adviser's key investment personnel, taking into consideration their education and financial industry experience. The Board discussed that the Adviser provided customized investment management services and solutions catered to the individual financial needs of the Adviser's clients. The Board noted that the Adviser's investment process screened for and selected large cap equity securities based on fundamental data that focused on above average dividends, dividend payout ratios, and qualitative factors. The Board noted that Covered Bridge held approximately 40-60 securities, sold call options on approximately half of the portfolio and wrote put options on securities the Adviser that it might be willing to purchase at lower prices. The Board commented that the Adviser utilized economic forecasting and macro analysis to target sectors and industries it believed were best positioned to strengthen throughout the period. The Board noted that the Adviser had an experienced team of research analysts and option strategists supporting Covered Bridge. The Board observed that the Adviser's chief compliance officer monitored trading activities and compliance with Covered Bridge's investment limitations by comparing a summary of portfolio statistics to the investment limitations. The Board acknowledged that the Adviser selected and approved broker-dealers based on best execution. The Board noted that the Adviser did not utilize artificial intelligence in any operational or investment procedures and did not anticipate using artificial intelligence in the future. The Board recognized that the Adviser reported no cybersecurity incidents, no material compliance or litigation issues since the most recent advisory agreement renewal. The Board concluded that it could expect the Adviser to continue providing satisfactory service to Covered Bridge and its shareholders.

<u>Performance</u>. The Board commented that Covered Bridge had earned a 3-star Morningstar rating and had positive performance across all periods though it had underperformed its Morningstar category and benchmark over the I-year, 3-year, and 5-year periods and trailed its peer group over the same periods. The Board noted that Covered Bridge outperformed its peer group since its inception period. The Board acknowledged that the Adviser attributed Covered

# The Covered Bridge Fund SUPPLEMENTAL INFORMATION (Unaudited) (Continued) September 30, 2024

Bridge's underperformance to its relatively small exposure to technology stocks, which had experienced tremendous growth in the past few years. The Board agreed that performance was acceptable.

<u>Fees and Expenses</u>. The Board recognized that the Adviser's advisory fee was the highest of its Morningstar category and was tied with the high of its peer group. The Board observed that Covered Bridge's net expense ratio was the highest of its Morningstar category. The Board recalled that the Adviser believed its advisory fee was appropriate due in part to the complexity of the covered call options in Covered Bridge's strategy and the additional resources required to utilize individual equity options on each position compared to many of its peers using an options strategy. Given these considerations, the Board concluded that the Adviser's advisory fee was not unreasonable.

<u>Economies of Scale</u>. The Board discussed Covered Bridge's size and its prospects for growth, concluding that the Adviser had not yet achieved meaningful economies of scale that would justify the implementation of breakpoints. The Board noted the Adviser's willingness to consider breakpoints as Covered Bridge reached a specified level of assets. The Board agreed to monitor and address the issue at the appropriate time.

<u>Profitability</u>. The Board reviewed the Adviser's profitability analysis and acknowledged that the Adviser had earned a reasonable profit in connection with its management of Covered Bridge. The Board concluded that the Adviser's profitability was not excessive.

<u>Conclusion</u>. Having requested and received such information from the Adviser as the Board believed to be reasonably necessary to evaluate the terms of the Advisory Agreement and as assisted by the advice of independent counsel, the Board concluded that renewal of the Advisory Agreement was in the best interests of Covered Bridge and its shareholders.

\*Due to timing of the contract renewal schedule, these deliberations may or may not relate to the current performance results of Covered Bridge.

### **PROXY VOTING POLICY**

Information regarding how the Fund voted proxies relating to portfolio securities for the most recent twelve month period ended June 30 as well as a description of the policies and procedures that the Fund uses to determine how to vote proxies is available without charge, upon request, by calling I-855-525-2151 or by referring to the Securities and Exchange Commission's ("SEC") website at http://www.sec.gov.

### **PORTFOLIO HOLDINGS**

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT, within sixty days after the end of the period. Form N-PORT reports are available on the SEC's website at http://www.sec.gov. The information on Form N-PORT is available without charge, upon request, by calling I-855-525-2151.
